

Our mission is to provide cost effective sourcing and manufacturing services in Asia, reducing risks with a comprehensive Program management system and Supplier Qualification program.

Whether you are an experienced off-shore manufacturing veteran, or considering your first sourcing requirement for a single component, Centillion may have a solution to your requirements. Our headquarters in Arizona provides a single point of contact to our Project Managers in Shenzhen and Shanghai. We understand our customers face unique challenges; the solutions that may help meet these challenges are as unique as your business. Centillion may be able to provide you with the options you need.

Full Production Assembly ~ Plastic & Metal Fab ~ Cables & Wire Harness ~ Components & PCB
